BOWLING CLUB

TREASURERS REPORT

The 2010/2011 year has been a busy year financially with the refurbishment of the club and working towards our big Easter Invitation Tournament.

It certainly highlights the fact that for a sound future we must continue to have paid club management for the sound financial management of the club's day to day activities, Liquor Licensing and DIA compliance.

The new reporting systems that were implemented during the year meet today's business requirements.

As you will see in the financials the club incurred an overall small operating loss. This clearly shows that it is imperative that we have continuous activity at the club both on and off the greens throughout the year.

At the AGM the Chairman will explain the accounts in full and answer any questions that members may have.

We must at all times work towards the following:

- An ongoing income stream from venue hire and corporate bowls days
- Greater activity within the club
- The need to have an income of around \$50,000 per annum in Grants

I am sure the incoming Board will be fully committed to those factors being achieved and the club moving forward in a positive and enjoyable environment.

Marlene Castle
Treasurer
